About Producer	Nyetimber is one of English wines most famous names. It can trace its origins back to the Domesday book but wines weren't planted until nine centuries later, in 1988, when the holy trinity of sparkling wine grapes – Chardonnay, Pinot Noir and Pinot Meunier – found a new home in the lee of the South Downs. The chalky soils and cool climate are perfectly suited to these three Champagne varieties. Married couple Cherie Spriggs and Brad Greatrix first joined Nyetimber as winemakers in 2007, after trying a bottle gifted to them by Cherie's parents. They instantly recognised the promise of this early wine, and since 2007, Cherie and Brad have been integral to building Nyetimber into a sparkling wine producer that rivals the best in the world. In 2018, Cherie became the first sparkling winemaker outside the Champagne region to win the prestigious Sparkling Winemaker of the Year award at the International Wine Challenge.
