About Producer	“Bay Distilleries started in our heads at virtually the same time, in fact the same evening, chatting on a certain famous multimedia platform. We are Chris and Jonathan, two friends that frequently share too many Gin and Tonics. We came to the conclusion that with Jonathan’s experience in the brewing industry and Chris’s experience in chemical engineering, we could take over the world, or at least make a fine Gin that we would love to drink on well, every occasion.” Bay Distilleries
ABV	40%
